ICS 1701

Dimensions:

1. 4200(L) x 600(D) x 2100(H)
2. 3600(L) x 600(D) x 2100(H)
3. 3000(L) x 600(D) x 2100(H)
4. 2400(L) x 600(D) x 2100(H)

Features:

- A high-density mobile shelving system, also known as a file compactor.
- Maximizes storage space by mounting shelving units on wheeled carriages that run on floor tracks, eliminating the need for multiple fixed aisles.
- Units are moved using manual hand-cranks (rotary wheels) to slide them together or apart, creating a single "floating" aisle for access.
- Designed for mass archival storage of files, binders (as shown), and boxes, featuring multiple adjustable shelves within each unit.

ICS 1702

Dimensions:

1. 4200(L) x 600(D) x 2100(H)

4. 2400(L) x 600(D) x 1800(H)

Features:

- A high-density mobile shelving system (file compactor) made of light-colored (beige or light grey) steel.
- Units are manually moved using rotary hand-cranks to slide them together or apart, creating a single "floating" aisle for access.
- The open unit reveals multiple levels of internal shelving, ideal for heavy-duty archival of files, boxes, and binders.
- The front-facing (end) unit is shown with lockable cabinet doors, allowing the entire system to be secured when compacted.

ICS 1703

Dimensions:

1. 4200(L) x 1200(D) x 1800(H)
2. 3600(L) x 1200(D) x 1800(H)
3. 3000(L) x 1200(D) x 1800(H)
4. 2400(L) x 1200(D) x 1800(H)

Features:

- A heavy-duty, high-density mobile shelving system (file compactor) with a uniform light grey steel finish.
- Compresses multiple shelving units onto floor tracks to maximize archival storage capacity by creating a single, movable access aisle.
- The interiors feature multiple levels of robust, adjustable shelves, ideal for storing binders, boxes, and heavy files.
